Announcements: The Conflict Resolution team is recruiting and training.

Visioning: Paul W., Irasema and Jesse will lead session on visioning for the logic model. Paul W. offered a background. All momentum teams were asked to develop a vision, hope to accomplish in their momentum teams. The visioning sets the stage for logic model. All team will come up with overarching vision to guide work.

Vision is different from mission statement, which is the business of organization. A vision is also different from goals which are related to strategies. Vision captures our hopes and dreams; it can be broader and more ambitious. Paul W. asked the group to think broader to discuss what it would mean for City Heights to be a healthy thriving community.

Paul W. first asked the group to think about the next five years, and consider successes. Paul W. lead the group through an ICA visioning process and then asked for volunteers to form a small group to finalize the vision.

Please see attachments; Emerging Vision for a Healthy City Heights and All-team Vision for detailed notes on the session.

Team that signed up to develop the statement: Dana, Shukri, Virginia and Rich.
