Discussion Comments

- Connect capacity building w/built environment
- Relate issues presented with education
- Use “promotora” model
- Another issue to add is street improvement and maintenance, specially on El Cajon Street
- Include schools has public spaces
- Likes how plan is so broad
- People will be able to come up with the issues they want to work on
- Agencies will provide the tools
- Include training on the health impacts of un-healthy work-employment environment
- Include impacts of Prop MM into the history for City Heights
