RE: **Letter of Support**

Dear Mid-City:

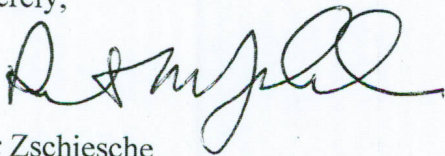

This is our letter of support committing the Employee Rights Center to be engaged in the 9-month planning process for The California Endowment's "Building Healthy Communities Initiative" here in City Heights.

Center representatives have attended the meetings regarding this effort so far and our full staff has discussed the Initiative and collaborated on our "Application to Serve on the Oversight Committee" which is attached to this Letter of Support. We believe that our application shows our understanding of the proposal and our commitment.

Specifically, we are committed to have designated representatives at each of the three upcoming 2-hour meetings on May 19, 26, and June 2. Beyond that each of our several staff and our law student interns have particular skills related to the 9-month planning process that we will call on as required by the process and outlined in our application. Finally, we will be able to absorb some of the copying involved in the process and from time to time, may have some office space available for small meetings of committees.

We look forward to participating with our community partners in this process.

Sincerely,

Peter Zschiesche
