

April 22, 2009

Dear California Endowment,

On behalf of Reality Changers, I would like to thank the California Endowment for selecting City Heights as a primary site for the Endowment's "Building Healthy Communities" initiative. As you know, City Heights is a community faced with numerous challenges yet filled with hope. We have many residents and organizations that are advocating for our community and working to improve the quality of life for all the residents of City Heights.

Reality Changers is committed to participating in the Place Partnership nine-month planning process alongside other leaders, community organizations and residents in City Heights. We are pleased to have the opportunity to collaborate with other partners in City Heights in order to achieve the 10 outcomes of success as outlined by the California Endowment.

We recognize that the success of this planning process will be determined by the level of engagement of local government and community-based organizations. Reality Changers is willing to actively participate in the planning process. Our staff and interns will be available to attend meetings and conference calls as needed in order to ensure the success of the planning process. Additionally, Reality Changers can provide in-kind staff hours (as staff schedules permit) to assist as needed during the nine-month planning process.

We look forward to working alongside the California Endowment so that together we can build a strong and healthy community.

Sincerely,

Christopher Yanov  
Executive Director
